

# Goat Milk

made with goat milk for more immunity

Shine goat milk is used to rear and fatten over 300,000 kid goats every year mainly in France and Spain. Many of the kid are reared in large numbers with milk replacer making up most of their nutrition so health and performance are critical.

## Formulation.

Shine Goat is made with goats milk to improve goat health and digestion. The flavour and aroma will also encourage intakes. It also contains high levels of coconut to minimise clostridia growth in the intestine and buttermilk fat to reduce virus populations.

The high level of milk to plant protein ensures kids use the minimum energy required to digest the nutrients in Shine Goat Milk.

## Analysis.

23% Crude protein, 23% Crude Fat, 8% Ash
